## Provincial Grant for Market Roads

It was reported at the meeting of Mountain View Municipal Council, held on Saturday, that the Provincial Department of Public Works had made a grant of \$2,000.00 to be expended on the Didsbury-Three Hills district road and Olds-Trochu district road. The municipality is required to expend a similar amount on these roads.

Mr. J. McQueen, district engineer of Red Deer, discussed with the council the expenditure of the grant, and it was decided the grant would be principally used for placing gravel on the roads. The grant will be divided equally between the two roads. It is expected that the council will spend an additional amount on the market roads.

As there had been some requests for the use of the tractor and bulldozer, the council set a rate of \$5.00 per hour for ratepayers and \$8.00 per hour for non-ratepayers.

A communication was read from Prairie Farmers Assistance Branch, asking that the municipality co-operate in gathering information for the Wheat Acreage Reduction.

A resolution was passed instructing the secretary to co-operate in this matter.

The secretary was given permission to attend a secretaries' refresher course, to be held at Edmonton on June 16, 17 and 18.

It was decided that the council should make a tour of the roads in the municipality in the latter part of June, and plan a road programme for the season.

One tax consolidation agreement was approved, and paycheques and accounts were passed.

## Red Cross Notes.

The Senior Tea Committee reports that \$105.00 was realized at the tea and food sale held on May 29th.

The committee wishes to thank the public for their splendid support and all the ladies for their donations and assistance.

## Scouts and Cubs Have Big Night

The local Boy Scouts and Cubs had a big night on Wednesday last, when F. G. Bower, Dominion Field Secretary, paid them a visit of inspection.

During the first part of the evening, Mr. Bower watched them go through the regular routine of work in the Legion Hall and complimented both the boys and their leaders on their progress. He remarked that they were the most enthusiastic groups he had visited for some time.

The boys later marched to the school where several films of moving pictures of scout competitions and camp life were shown.

The Cubs have been organized for some time, and under the able leadership of Mr. Chas. Geiger, have developed wonderfully, and are now a very interested little group.

The Scouts were re-organized only a short time ago, and Messrs. Eldon Sherman and A. W. Haley have made great progress.

Don Mortimer, a King Scout of the first Didsbury troop, has undertaken the leadership for the summer months, and the boys are fortunate in getting so capable a scoutmaster. Don says the boys are even more enthusiastic than the first troop, and that within a couple of weeks most of the boys will have passed their tenderfoot tests.

## Births

At Didsbury General Hospital

To Mr. and Mrs. Ralph Bliss, Olds, June 4, a girl.

## Notice.

The office of the Municipal District of Mountain View No. 310, will be closed on Wednesday, Thursday, and Friday, June 16, 17 and 18.

A. BRUSO,  
Sec.-treas.

## Town Council.

A. C. Fisher, who was elected to fill the unexpired term of Coun. L. Berch, was sworn in at the meeting of the town council held on Monday evening, and some of the committees were re-appointed.

Coun. Fisher was appointed to the Public Works committee, in place of Coun. Spence, who was appointed chairman of the Fire and Property committees, also to the Police and License committee.

The condition of main street came in for much discussion, and on the advice of Mr. McQueen, Provincial district engineer, it was decided to put in several experimental drains across Main street.

Mr. McQueen also recommended that a consulting engineer be engaged to lay out a drainage and sewage scheme as a post-war project for the town.

## Celebrate 70th Birthday

A large number of pioneer residents and friends gathered at the home of Mr. and Mrs. J. A. Adam, north west of town, to surprise and celebrate with Mr. Adam the attaining of his 70th birthday.

Mr. and Mrs. Adam were among the pioneers of this district, coming here from Ontario in 1901, one year after their marriage. Taking up a homestead, they have done their share in building up this country from raw prairie and rough land to a prosperous farming settlement.

Mr. Adam has been connected with the M.B.C. Church for many years, having served efficiently as Sunday school teacher, trustee and board member.

A generous luncheon was served to about 30 guests, which was followed by a short program of scripture reading, sacred numbers in song and prayer.

## Didsbury Jottings

By A.C.H.

You can bring your sun suits out of moth balls at last, ladies. It's patriotic to get all the Vitamin D you can and stay Vigorous for Victory. Besides giving the neighbors a treat.

Why can't they invent an income tax form that asks a simple question and requires a simple answer. This business of "If your son's parents are still living, refer to item 10G, at the bottom of page 2", gives us a pain. And as to whether we would like the amount we overpaid last year, credited to our next year's tax or not. The answer is, "Don't be funny", and "Yes, send it along P.D.Q."

The blossoms on the apple tree in Mr. Austin's garden are lovely. Prettier than lots of pictures. We liked the Cedar Waxwings, too, till we heard they are lunching and dining on the beautiful blossoms. Not that they aren't a temptation, mind you.

The lilacs are out as well, and the strawberries in bloom; so altogether it is a flowery blooming time in the old town.

There has been much less rhubarb sold than usual, in proportion to the number of rhubarb sugar coupons turned in. Guess people are eating their rhubarb sweeter this year.

## Health Unit Notes

The Rosebud Health Unit wishes to announce the following winners in the recent competitions for school children and students.

Merle Ellis, grade ten, of Sundre is awarded the \$2.00 prize given by the Rosebud Health Unit for the best essay on "Prevention of Tuberculosis".

Honorable mention is given to Mary Rempel of Neapolis for a very complete essay on the subject, which however, did not conform to the rules of the competition, by being over eight hundred words.

Phyllis Davidson of Sundre, was awarded the \$2.00 prize given by Rosebud Health Unit for the best poster on tuberculosis. This poster may be seen on the wall at the Health Unit.

The \$1.00 prize for the junior poster, on any health subject, was awarded to Marilyn Hunter, of the Bennett school.

Honorable mention is given to a poster by Jean Wilson, of Rosebud school.

We choose this opportunity to thank all contestants for their efforts. We also wish to thank Shirley Wilson of Rosebud school, for her contribution of poster-cover for the health magazine, "Our Health Booster", and other contributors of poems and riddles.

## Tanks Will Parade at Sarcee Sunday.

Didsbury and Carstairs detachments of the 14th (B) Army Tank Regiment will parade at Sarcee on Sunday, June 13.

Same detachments will also parade at Olds on Monday, June 14, to receive issue of K.D. All ranks must be present.

## Consumer's Coupon Calendar

Sugar coupons  
(Each good for one pound of sugar)

Dates of validity:  
Nos. 7 & 8, Thursday, May 27.  
Nos. 9 & 10, Thursday, June 24.  
Nos. 11 & 12, " July 22.  
No. 13, " Aug. 19.

Tea or Coffee coupons  
(Each good for two ounces of tea, or eight ounces of coffee)

Nos. 7 & 8, Thursday, May 27.  
Nos. 9 & 10, Thursday, June 24.  
Nos. 11 & 12, " July 22.

Nos. 24 & 25, " Aug. 19.

Miss Vera Sinclair, of Calgary, spent the weekend with her parents, Mr. and Mrs. D. Sinclair.

## Oranges Spoil in Military Parcels

No matter how welcome an orange may be overseas, it is not a good traveler in parcel for a member of the Armed Forces abroad.

Parcels are still being received at the Base Post Office seldom through and requiring repair because fruit had decayed within them. Canadian Postal Corps officials stated that in some of these parcels oranges were found which had been dipped in paraffin wax before packing—a measure that did not prevent decay.

The mailing of fresh fruit to the Forces is prohibited because of its perishable nature and the likelihood that it will also damage other parcels in the mail bag. To help ensure the safety of overseas Armed Forces mail and to avoid delay and loss, do not include fresh fruit in parcel post.

## Flannelette Goes To The Home Front

Canadian babies have been loudly demanding more flannelette for the home front, so by such moves as prohibiting manufacture of children's two piece sleepers, of flannelette, and limiting the length of sleeves in women's and misses' pyjamas to five inches, 180,000 yards is conserved right off.

A total of 230,000 yards will be conserved through a new order of the Wartime Prices and Trade Board designed to meet increased demand for flannelette.

## M.B.C. Church Notes

Services at the M.B.C. Church on Sunday, June 13, are as follows:

Sunday school at 1:30, and the afternoon service at 2:30. Rev. E. G. Archer will speak upon the theme of David's conception of "The Essentials of Soul Winning", employing verses 10 to 15 of the 51st Psalm, as his text.

The evening service begins at 7:45, and will be given almost entirely to singing. A group of numbers will be rendered by the girls' chorus, and solos will be given by Dr. Seaman and our song leader, Mr. W. Snyder.

You are assured of a hearty welcome.

## The Eighth Army

**DURING RECENT MONTHS** the progress of Britain's Eighth Army in Africa rarely failed to occupy a leading position in the daily war news. During the early part of the fighting in Africa, the term "Eighth Army" had no special significance, but it is now the symbol of a great fighting force whose fame will never be forgotten. For two and a half years and more, this force has fought on the desert and it has come to be known as "an army of young veterans." The aptness of this title is borne out by the fact that there are a number of battalion commanders who are under thirty, including several of twenty-three and twenty-four and there are brigadiers of thirty-five and thirty-six. All the armoured divisions of the Eighth Army are from the United Kingdom. The infantry includes the famous Fifty-First Highland Division, and the Fifth Division in which there are many men from the North of England. With them have fought troops from Australia, New Zealand, South Africa and India.

### The Poultry Industry

Now Faced With Greatest Demand It Has Ever Known

The poultry industry of Canada during the next 12 months will be faced with the greatest demand for eggs and poultry it has ever known. At least 100,000,000 dozen eggs will be required for export alone to several countries. In addition, the requirements of the armed forces have doubled since the first year of war and the civilian domestic situation is demanding more and still more eggs.

### Supply Problem Ably Handled

Much has been written of the magnificent leadership given to the Eighth Army by General Montgomery, under whom it made its epic advance from El Alamein to Tunisia. During this advance the Army was supported by the longest supply line used by any fighting force in the world in this war. The line stretched 12,000 miles, from Britain around the Cape of Good Hope to Egypt. To this line of communication by sea was added an ever-lengthening land line, as the army made its rapid advance. If it had not been for the perfect organization of the system of supply the progress of the army could not have been so swift, and great tribute has been paid to Lieut. Gen. Sir Wilfrid Lindsay, who was in charge of this part of the campaign. In addition to the enormous quantity of regular supplies needed, there was the problem of bringing in fresh water which raised the daily 400-ton requirement of stores for an army division to 520 tons. We are told that all supplies, from tanks to cakes of soap were delivered on schedule, and that every man in the Eighth Army partook of a Christmas dinner.

### Advance Marked Turning Point

The problem of repairs was also a great one in this highly-mechanized campaign. It is said that in the first month of the advance one thousand tanks were brought out of battle, repaired, and sent back into action. In one period of twenty-four hours eighty-eight heavy tanks were repaired in the battle area, thirty-six of them being done by one corps alone. This work was done by the Quarter-master General's Staff, supported by the newly-formed Corps of Royal Electrical and Mechanical Engineers, which have recovered and repaired many mechanical vehicles behind the lines and in the battle area. The victorious advance of the Eighth Army in Africa has been one of the turning points towards an Allied victory, and its effect on the morale of the people of the United Nations has been very great. In the records of this war, the campaign of the Army in Africa will no doubt be treated as an event of outstanding significance.

### HEALTH LEAGUE OF CANADA

**VITAMIN A** is the vitamin needed particularly for the eyes but it is also important for all the body tissues, especially the mucous membranes. If these are kept in healthy condition, we shall be less susceptible to infections, including colds. Vitamin A will not prevent colds, but by keeping the tissues of the respiratory tract healthy we are less susceptible to infection and any illness we may suffer as a result of infection is likely to be less severe.

A common condition due to Vitamin A deficiency is a form of night blindness, that means simply inability to see clearly in the dark. Our best and easiest, and also cheapest, way to get Vitamin A is from carrots. One carrot per day will give more than half the total amount the body needs. One teaspoon of cod liver oil provides more than a day's requirement. Green vegetables, such as spinach and lettuce, and yellow vegetables, such as carrots, sweet potatoes and squash, contain large amounts of the vitamin. There is more than a day's needs in an average serving.

Vitamin A is not destroyed in cooking, so that this is one Vitamin easily provided, if we see to it that we get one yellow or green vegetable daily. Raw vegetables are always better as they contain more of the other vitamins and the minerals.

**Carrot Strips:** Cut carrots in medium ring for each member of the family, into strips two or three inches long, one-quarter inch square. Crisp in ice water or cold water and serve at lunch or dinner. Carrot strips may also be given children between meals instead of candy.

Write to the Western Division Health League of Canada, 111 Avenue Road, Toronto, Ontario, for a free Vitamin Chart.

### No Energy Wasted

New Airplane Engines Produce Electricity During The Test Run

After years of idle running on test-stands for the breaking-in process, new airplane engines have been given useful work to do. Hooked up with an ordinary electric generator of the type normally driven by a Diesel engine, one engine can produce about 2,000 kilowatt-hours of electrical energy during its test run. Every newly completed aircraft engine is given what engineers call a "green" run in a special test cell. Then it goes back to the factory to be taken apart, inspected and reassembled for the final break-in run. Generators thus used in one factory produce more than 4,000,000 kilowatt-hours, worth about \$24,000, which is enough to drive the factory's lathes, drills, grinders, boring machines and other tools used in manufacturing the engines, as well as to light the factory. They also aid in the tests, since by measuring the electricity generated engineers can tell whether the engine is running properly—Popular Mechanics.

Although they have six legs, dragonflies cannot walk.

### SMILE AWHILE

Teacher—"Who can give me an example of righteous indignation?" All right, Gerald."

Gerald—"Getting mad enough to fight but never acting mad."

Bugler—"I'm entering the contest for the best musician in camp. How do you think I'll come out?"

Corporal—"On a stretcher, probably."

"Your mother tells me that you have been a very bad boy, Tommy."

"Well, father, you don't want to believe all you hear around the house."

Gardener—"This, madam, is a tobacco plant."

Old Lady—"How interesting! How long will it be before the cigars are ripe?"

At the Home Guard parade, Private Green turned up with muddy boots and his rifle practically filthy. Yet the sergeant passed him by without a word.

"I say," whispered a pal, "how the heck do you get away with it?"

"Quite simple," replied Green calmly. "I keep an electrical shop and I know the blighter wants a No. 8 battery rather badly."

"What's good for my wife's fallen arches?"

"Rubber heels."

"What shall I rub 'em with?"

Doctor (gazing at patient's eye)—You say you have trouble with it. . . . But there's something more. . . . On looking at it, I see signs of

liver trouble, of anemia, and I fear, of a chronic nervous affliction.

Patient—Look at the other eye. This is my glass eye, you see.

He took his best girl for tea in a restaurant. Half-way through he looked at her and smiled.

"You're gorgeous," he said.

She seemed pained.

"I may possess a hearty appetite," she replied, "but no one could truthfully call me gorgeous, dear."

Dear Health Editor: Every time I have a cup of tea I get a stabbing pain in my right eye. What shall I do?

Answer: Take the spoon out of your cup.

Groom: "Did you make this cake, dear?"

Bride: "Here's the recipe. I clipped it from a magazine."

Groom: "Are you sure you read the right side. The other side tells how to make a rock garden."

### Welcome Relief for SHARP, SEARING STOMACH PAINS

Do you suffer distress after meals—indigestion, dyspepsia, heartburn, sour stomach, gas, excessive acid? Don't wait for pain to strike again. Take **PA-L-O-M-I-N-E** immediately after eating to help prevent food fermentation, soothe the stomach, neutralize the acid and aid natural digestive processes. Just send your name and address with 25 cents and a full size package will be mailed post-paid. Or take advantage of our special offer—for a limited time only—of five packages for \$1.00.

## German Air Raid Wardens Have A Busy Time Keeping Up With Bombing Regulations

(By A Special Correspondent)

WHEN a German bomber came out of their house one morning, they found a large red-edged poster stuck on the front. It bore the words: "This house was badly blacked-out." Actually, they got off lightly, because ARP regulations have naturally enough been tightened up since the R.A.F. began large scale bombing of German towns, and a fine is the more usual punishment for a black out offence.

German ARP, always highly organized and military in character, has become more so since new regulations were made. Duty is compulsory for all citizens between 15 and 70. Women were recently called up for emergency service with the fire brigade, and it was also laid down that labour conscripts should be required to do short turns of duty with the brigade.

Household ARP, the Wardens' Service, and the rest of the Civil Defence Service have been closely associated with the police organization under Himmler for the past year. The name of the war emergency organization is Air Protection Police. In addition, there is the Air Protection League, which is responsible for propaganda and training, and is organized on the basis of a series of groups, of which the smallest is concerned with the block of dwellings or a single large building.

The Wardens' Service is organized on lines very similar to those of the Nazi Party. Itself highly regimented, it has powers to regiment the German people. It is, for instance, compulsory to go into a shelter when the warning sounds, and the Warden may, if he likes, forbid the "herren-volk" to speak in the shelters if the atmosphere is becoming polluted. Anyone who fails to comply with the regulations to take cover receives no compensation if hurt.

Public shelters are well equipped and solidly built. Some are of the basement type, others tower or heavily protected surface shelters of several storeys. Some of the underground refuges are large enough to accommodate 15,000 people. "Table" shelters do not appear to be used at all in Germany, but there are plenty of small surface shelters.

Although there are strict rules the clearing of attic, provision of water and sandbags and in special cases the treatment of buildings with fire resistant paint, on the whole fire-fighting equipment appears to be on a less elaborate scale than in Britain. Stairrup pumps must be bought. There is no distribution of steel helmets, even for wardens and fire-fighters, who are advised to wear felt hats soaked in water as a protection against sparks. Flares are wetted and screens supplied with wet blankets in some cases.

Respirators also appear to be in short supply. The general public issue seems to be restricted, but masks can be bought for about five shillings. For wardens there is special gas-proof clothing.

After the raid everybody is expected to clear up, but at the same time unauthorized entry into the ruins is strictly prohibited, so that too much news of the damage shall not leak out. In some cases, however, the price of idle curiosity has been paid heavily, and the authorities have compelled all sightseers to stop and help clear up the debris.

Air raid damage is repaired only when considered essential, and there is no such compensation paid for damage. Relief for bombed-out Germans is the responsibility of the Nazi Party and not, as in this country, in the hands of local authorities. Party officials thus manage to earn a certain amount of gratitude in insurance against lost moral and loyalty which might be caused by heavy bombing.

### HOW IT WORKS

A small business man in Boise, Idaho, discussing difficulties of war-time operation, made this report: "I normally employ 22 persons. During 1942 there were 153 names on the payroll, and of these only four, including myself, were there at both the start and end of the year."

It has been estimated that 82 per cent. of Americans normally get to their jobs in automobiles.

### Rammed Sub

Lieutenant-Comdr. R. E. Coleman, R.C.N.R., of Montreal, commanding officer of H.M.C.S. Ville de Quebec, which rammed a German sub. He had two great uncles in the battle of Trafalgar and comes from a "navy" family.

### To Avoid Waste

Some Useful Hints On Meat Care Everyone Should Know

The packer and butcher take scrupulous care of meat while it is in their hands. It is just as important that proper care be given to meat in the home in order that any waste through spoilage may be avoided.

Here are some tips on meat care from the "Consumer Section" of the Dominion Department of Agriculture. The wrapping paper should be removed from meat as soon as it comes from the butcher. If this is not done the paper acts as a blower, drawing out some of the juices of the meat, the surface of the meat is kept moist and spoilage occurs more quickly.

Meat should be kept as cold as possible. Uncooked meat should be covered lightly, preferably with waxed paper. Cooked meat should be allowed to cool uncovered, then be closely covered to prevent drying out, and kept cold. Ground meat, either raw or cooked, spoils more quickly than unground meat and should always be used promptly.

Left over stews or soups which have been cooked with potatoes or thickened with flour will spoil quickly and should be used up promptly.

Meat should be wiped with a damp cloth. Washing is necessary only with the organ meats where clotted blood has to be removed and sometimes with smoked hams.

### Greatest Newspaper

Is The One Published In Your Own Home Town

The Bowmanville Statesman says: A famous newspaper publisher recently made this statement: "The greatest newspaper in the world today is not the New York Times nor the London Times, but your own local newspaper; it alone gives you your life and breathes of home."

How true are these words? Johnny is born in a town and grows up there and if that town has a newspaper, the history of Johnny's life will be chronicled in its columns. From Johnny's birth, his christening, his progress at studies, in sports and community activities, right through to his entrance into business or a profession. It is all there, from time to time, for parents, relatives and friends to read, and ready to be clipped for family scrapbooks. What large daily in any great city carries items of equal interest to those folk?

A story comes from Ottawa of a prominent citizen who was honored for distinguished service. The metropolitan papers across the country played it up, but the writup which thrilled this man the most and brought a glint to his eyes was the one appearing "back home," the town he had left 20 years before.

### Non-Magnetic Building

No Trace Of Iron Or Steel Used In Construction

Because it will be used for the assembly and adjustment of magnetic compasses and precision instruments for aircraft, a non-magnetic building recently completed at Elmhurst, Queens, N.Y., is without a trace of iron or steel anywhere in its structure. In place of these metals, brass, copper, aluminum and wood are used for conduits, pipes, nails, bolts and girders. Some of the pipes are terra cotta instead of cast iron. Brick was used for the outside. Popular Mechanics.

Actors in ancient Greek tragedies wore high heels to give them added height.

### Helped Rid Africa Of Axis Forces

Typical of the Royal Canadian Air Force fliers who have helped rid Africa of the Axis forces, these youthful Canadians pause a moment beside one of their Spitfires at an advanced North African aerodrome. In this picture, just received by bomber, the four (left to right) are: Flight Sergeant M. A. Perkins, of Saskatoon; Flight Sergeant E. G. Shea, of Moose Jaw, Sask.; Flight Sergeant Don Gordon of Vancouver; Flight Sergeant W. J. Steele, of Montreal and Flight Sergeant F. D. Schofield, of Montreal West, Que.

## Canadian Navy Has Been Providing Half The Escort Ships For Atlantic Convoys

WHEN war broke out the Canadian Government and the naval staff fully realized that the main duty of the Canadian Navy was to be the provision of escorts for merchant ship convoys crossing the Atlantic. The Canadian Navy has always been a Navy of small ships, and the outbreak of war found it with only destroyers and auxiliary craft at its command. Nevertheless, small as these ships were, they were ready to take their part in the big job. So ready, in fact, that six days after war was declared the first convoy left a Canadian port with Canadian destroyers as its escort.

### Smart Slip Covers To Make Yourself

by Alice Brooks 7397

"Make-your-own" is the modern slogan. So if you need new slip covers to protect good furniture or to hide shabby pieces, order these simple instructions. They show you how to cut, fit and finish like a professional! Instructions 7397 contain step-by-step directions and information for making slip covers for varied chairs and sofas.

To obtain this pattern send twenty cents in coin stamps cannot be accepted to Household Arts Department, Winnipeg, Newspaper Union 175 McDermott Avenue E., Winnipeg, Man. Be sure to write plainly Your Name, Address and Pattern Number. Because of the slowness of the mails delivery of our patterns may take a few days longer than usual.

Since then the Canadian Navy has added scores of escort ships to its original force. Corvettes, specially designed as anti-submarine craft, have been built in Canadian shipyards and manned by Canadian seamen. Destroyers have been added to the original fleet, some from the United States, some built in British shipyards and others laid down in their own country. Minesweepers, which can also take their place as escort ships, are now going to sea in ever-increasing numbers. Patrol motor launches designed mainly as anti-submarine craft have been built in Canada.

With these ships, numbered in their scores at its disposal the Royal Canadian Navy has undertaken an ever-increasing share in the battle of the Atlantic. In May of last year it was announced that one-third of the escort ships in the Atlantic were being provided by the Canadian Navy. In the months that followed its percentage increased until roughly half the escort ships were the white ensign of the Empire's Navies at sea and the blue jack of Canada's Navy at the jackstaff.

The demands of war in other spheres took Canadian ships into the North African campaign and a number of corvettes participated in the initial landing there. Nevertheless, the Atlantic Battle—which has been called "The Permanent Trafalgar of the Second Great War"—has continued to be the main scene of naval action for Canada's ships.

They have acquitted themselves well. They have scored their successes against submarines. How many U-boats have been destroyed has not yet been revealed, only the occasional action being recorded. There was, for instance, the incident in which H.M.C.S. Assiniboine, a destroyer, came upon a German submarine on the surface. Visibility was extremely limited. Assiniboine engaged at close range with guns and depth charges, harassed the submarine as it tried to seek safety beneath the surface and finally disposed of her by ramming.

H.M.C.S. Oshawa, a corvette had similar good luck. She rammed her submarine three times and came back to port limping slightly, with prisoners as proof of her success. It is, however, rather unfair to cite the names of individual ships, for these sinking of submarines that the success distributed throughout Canada's fleet.

It is, however, not alone in the sinking of submarine that the success or otherwise of the Battle of the Atlantic can be measured. Such sinkings are satisfying proof of the effectiveness of the escort ships—but nevertheless they are but the highlights on a very broad canvas. The real measure of success is that, despite the best and worst Hitler's Navy can do, the lifeline between the old world and the new has not been broken.

### All Hymns To Them

Anything They Can Sing Is All Right To Children

From a Glasgow minister, who read the story about the little girl who sang "Praise the Lord and Pass the Ammunition" as a hymn, comes another to cap it.

When he was a minister in Edinburgh he presided at one New Year's party for Band of Hope children, and during the entertainment asked one or two of the children to come up to the platform and sing a verse of a hymn. One tiny youngster marched up gravely and sang a verse of "Another little drink wouldn't do us any harm."—Glasgow Herald.

Modern railway track lasts approximately 20 years before it must be replaced. 2517

## The World of Wheat

by H. G. L. Strange

### — WHEAT ACREAGE —

We are continually being told that  
Canadian farmers must reduce wheat  
acreage because of an alleged burden-  
some world wheat surplus — (I have  
never felt myself that the surplus  
was as burdensome as some seem to  
think.)

Our farmers have loyally respond-  
ed to the Government's appeal and  
have reduced wheat acreage from  
1940 to 1942 by 20 percent, while the  
United States, during the same  
period, reduced her wheat acreage  
by only 19 percent. This year,  
1943, prairie farmers have reduced  
wheat acreage by an additional 20%  
but the United States government  
is now actually bonusing American  
farmers to increase their wheat acre-  
age.

Surely there is room for better  
collaboration here. If the United  
States requires more wheat, can they  
not draw on the surplus Canadian  
farmers now have unsold on their  
farms, and devote more of their  
land to the production of feedstuffs  
which they tell us they so badly  
need?

How can we expect 43 different  
nations now meeting at Hot Springs,  
Virginia, to agree on the interna-  
tional production and distribution  
of all world foodstuffs, if two such  
close neighbours as the United  
States and Canada, and which speak  
the same language, cannot work out  
a fair plan to decrease their own  
wheat acreage?

The U.S. livestock feed supply is  
expected to be 10 percent smaller in  
1943-44 than for the current year,  
while livestock population is expect-  
ed to increase 10 percent—Lack of  
rain is causing crop deterioration in  
southern Europe—Britain makes  
heavier purchases of Canadian wheat  
this year.

Turkey has increased wheat acre-  
age by an estimated 20 percent over  
last year—Finland's 1942 grain har-  
vest of about 425,000 tons was about  
70 percent of the 1936-39 average,  
whereas the 1941 crop was only 61.5  
percent of the average—New Zealand  
officially forecasts a wheat crop of  
10,500,000 bushels for the 1942-43  
season as compared with the 1941-  
42 harvest of 8,671,244 bushels.

## Canadian Pools Ask 10 Cent Price Increase

The central board of the Canadian  
Co-operative Wheat Producers Sat-  
urday requested the initial payment  
for wheat purchased by the Cana-  
dian Wheat Board be increased 10  
cents to bring the price for No 1  
Northern, basis Fort William, to  
\$1.00 a bushel.

The board of directors approved a  
telegram which was forwarded to  
Trade Minister MacKinnon recom-  
mending that he give "immediate  
consideration" to the proposals con-  
tained in a brief presented to the  
government by the Canadian Fed-  
eration of Agriculture last February.

The brief recommended an initial  
payment under the wheat board act  
of \$1.00 a bushel. "We believe  
changes in the market situation  
warrant your immediate considera-  
tion of the federation's proposals",  
said the telegram.

600 Royal Navy ships are at sea  
at any given moment, and at least  
22,000 British ships, of which 1,800  
belong to the United Kingdom.

## YOU MUST MAKE A 1942 INCOME TAX RETURN NOT LATER THAN JUNE 30TH ...IF SINGLE and your net income exceeded \$66000 ...IF MARRIED and your net income exceeded \$120000

For incomes not over \$3000 get two (2) copies of simplified Form T. 1 Special.  
For incomes over \$3000 get three (3) copies of Form T. 1 General.

Income Tax dollars are not ordinary dollars... they are Victory dollars  
... necessary dollars to help win the war. Income Tax is fair to all. All  
are taxed in proportion to their ability to pay.

Under the new system introduced this  
year, Income Tax is now on a pay-as-  
you-earn basis. The reduction of the  
1942 Tax made this possible.

In most cases the larger part of the  
reduced tax will have been paid by the  
1942 tax deductions or instalment pay-  
ments. One-third of any balance must  
be paid by 30th June and the remainder  
on or before 31st December, 1943.

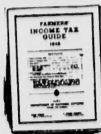

You must file an Income Tax return  
and pay any balance to establish your  
right, after the war, to the refund  
of the Savings Portion of your tax.

If you are a salary or a wage earner,  
your employer can probably supply you  
with Income Tax Forms—otherwise,  
they are available at your local Post  
Office or the office of your District  
Inspector of Income Tax.

Over 2,000,000 Canadians will be  
filing returns and paying taxes...  
avoid the last minute rush. If you  
wait, illness or other unforeseen  
circumstances may prevent you from  
getting your return in on time.  
Avoid penalties by sending in your  
return NOW!

### FARMERS

You must attach to your return on Form T. 1 Special or Form T. 1 General either  
a statement of your gross income and expenses, or completed Farmers T. 1 Supple-  
mental. The T. 1 Supplemental itemizes all forms of farm receipts and expenses, and  
is a guide for determining your actual net income. Forms may  
be secured from your local Post Office or District Inspector of  
Income Tax.

To help you fill out your Income Tax forms a booklet  
("Farmers' Income Tax Guide, 1942") has been prepared to  
cover the special conditions which apply to farm operations.  
It can be obtained free on request from your District Inspector.  
If you don't know his address, just mail your letter to "District  
Inspector of Dominion Income Tax."

Make your returns NOW! - Avoid Penalties!

**Rugby Notes**

With an attendance of eleven, the June meeting of the W. I. was held at the home of Mrs. O. Krebs. Mrs. Wahl was elected as delegate to the Constituency Conference which is being held in Didsbury on June 11.

Mrs. L. Krebs gave us an interesting account on the different parts of the Union Jack.

Everyone is asked to bring articles for filling ditty bags, to the July meeting which will be held at the home of Mrs. O. S. Brown, in the form of a social afternoon.

The blanket which was raffled this month, was won by Mrs. Wahl.

**Notes From the West**

Word was received from Calgary last week that Mrs. J. McDougal is in a hospital there, and in a serious condition.

The Elkton Willing Workers met at the home of Mrs. Gillies last Wednesday. Owing to bad roads, only five members were present, but a comforter was finished for the Red Cross. The next meeting will be on Wednesday, June 9, at the home of Mrs. L. Barnard.

Mr. and Mrs. Hogg received word that their son, Norman, is now stationed at Vancouver.

Mr. and Mrs. Papke entertained at a turkey dinner on Sunday, in honor of their daughter, Inez's 21st birthday.

Pte John Kynel, Sgt. Lowrie and Lt.-Col. Campbell are home on spring work leave.

**Can Some Fruits Without Sugar**

With the present allowance of 10 pounds sugar per person for canning home makers will be interested in the following suggestions by Miss Vera Richards, of the Extension Service, on canning without sugar.

Although the shape, colour and flavour of fruits are retained better when sugar is added, says Miss Richards, fruits may be canned quite safely without sugar. Fruits for pie-making or for use in diabetic diets are commonly canned in this way. Juicy fruits such as berries, cherries, currants and plums should be canned in their own juices when sugar is omitted. Water is not required. The juice should not be extracted from the ripe fruits by crushing, and this followed by heating and straining. The remaining fruit is packed closely into jars without preheating, and boiling hot juices added to cover. Then seal and process.

The less juicy fruits such as apples, peaches and pears require the addition of water. Only the smallest quantities of water necessary should be used. The general directions for canning should be followed substituting water for syrup. Five minutes should be added to the usual processing time. Before serving the fruits, the liquid may be concentrated by boiling.

1. To can rhubarb without sugar: (Rhubarb canned in water)  
 Wash before cutting. Do not remove skin. Cut in inch pieces. Pack in freshly washed, sterilized jars. Adjust new rubber. Put jar filled with rhubarb in deep pail, and pour cold water on. When the water in the pail comes over the top of the jar five or six inches, place on cover and seal under water.

To serve—do not throw away the water in the jar. Pour into a kettle and boil down until one-half the original amount. Add the rhubarb, cook until soft, and add sugar to taste.

2. Canned rhubarb: (Without cooking)

Sterilize the jars and tops and seal new rubbers. Take freshly gathered rhubarb and cut up as for pies. Partly fill one jar, then, using a thick, smooth stick, press down the rhubarb until the juice begins to flow as some of the pieces are broken. Continue this packing and pressing until the jar is quite full and the juice overflowing; adjust the rubbers and seal at once. Do not attempt to work with more than one jarful at a time. This rhubarb is delicious for use in winter pies. It retains all the flavour of the fresh fruit. One-half gallon jarful of the rhubarb is sufficient for 3 large pies.

**Lone Pine Notes**

Don't forget the annual meeting at the hall this Friday, June 11, at 9:00 p.m.

The Lone Pine W. I. held their June meeting at the home of Mrs. E. Hughes, with 17 members and 4 visitors present. A very interesting paper on "Legislation" was read by Mrs. B. Wood. Mrs. Wm. Lyons was elected delegate to attend the Constituency Conference at Didsbury on June 11. Mrs. P. Shumaker won the June War Savings Certificate and Mrs. Edna Dowell the ten-cent draw. July meeting will be held at the home of Mrs. Emily Hunter.

A community picnic will be held on July 1st. Lunch at one o'clock. Please bring your own baskets. Free ice cream. 25c admission per family at gate. Children's ball games and sports. Dance at night.

Miss Marjorie Burns and her brother, L.A.C. Harold Burns, were visiting their folks here over the weekend. Miss Burns, who is taking a business course at Mount Royal College, Calgary, expects to graduate this week, while L.A.C. Burns, who is at the S.F.T.S. at Maeloe, expects to receive his wings in a few days.

A charivari and shower was held last week in honor of Mr. and Mrs. Stuart Hooper. A large number attended and there appeared to be lots of fun.

The Burnside Junior Red Cross are holding a dance at Burnside School, June 18. Good music and a good time. Come and help a good cause, and at the same time please the Juniors. Ladies, please bring lunch.

Store in a cool, dark place.

Note: Pour hot water over rhubarb, let stand 5 minutes, drain off, then can or cook in usual way. If this is done, less sugar is required.

"WE NOT ONLY HAUL 'EM — WE BUILD 'EM TOO"

ALTHOUGH we, the Canadian railways, are carrying vastly more traffic than at any time in history, we are also building guns and tanks, ships and shells. Our machinery of production hums day and night. Implements of war roll from our plants in steady streams. They're made by the railways... hauled by the railways... the railways of Canada.

Only your railways, ready and capable of meeting the emergency before it occurred, can handle this double "must"... mass transportation and mass war production.

Your railways met a mighty challenge in Canada's period of construction. They are rendering dual service in War's period of destruction. They will be needed more than ever in the reconstruction period of peace. They will meet that challenge, too!

AVOID TRAVEL OVER WEEK-ENDS AND HOLIDAYS

**CANADIAN NATIONAL — CANADIAN PACIFIC**

Carrying the load in War and Peace

## WORLD HAPPENINGS BRIEFLY TOLD

Seventy locomotives and 700 freight cars were imported from the U.S. to see the Allied landings through to a successful campaign in North Africa.

Industries established in Great Britain by refugees will provide work for 100,000 British workers after the war, it was estimated in an article in the London periodical Spectator.

Rubber seeds have been dropped by parachute to speed production of the vital war material in inaccessible areas of the Belgian Congo, it was reported by the Belgian news agency.

British officials have decided to suspend making of air raid precautions badges because of the need for restriction in the use of material and labor for essential war purposes.

Adolf Hitler has signed a decree continuing indefinitely his tenure as one-man boss of Germany. The German radio said the decree was published in the German legal gazette.

Japan has decreed that the 17,000 sacred cedars of Nikko, the temple town, be set free from their sanctity and cut down to supply wood for a large fleet of junks for use along the Japanese coast.

Allied planes moved 12,000 casualties from forward stations to base hospitals during the Tunisian campaign, saving them days of ground transportation. Eight hospital trains were operated.

The Nazi authorities in the "protectorate" of Bohemia-Moravia were reported to have imposed a special tax on Czechoslovak citizens as "compensation" for not being compelled to undertake military service at the front.

### PREDICTS COLLAPSE

President Edvard Benes of Czechoslovakia predicted a sudden, dramatic collapse of Germany, like that of the Axis armies in Tunisia, after a desperate defence of the Axis stronghold in Europe.

## Tribute To Sir Edward Beatty

—Canadian Pacific photo.

The "Distinguished Civic Service Award" for 1942 was presented posthumously to Sir Edward Beatty, G.B.E., K.C., LL.D., D.C.L., long-time chairman and president of the Canadian Pacific Railway, recently at a ceremony in the board room of the Windsor Station, Montreal. Dr. Henry A. Beatty, of Toronto, Sir Edward's brother, accepted the award, a beautiful silver tray, suitably inscribed, from T. Taggart Smyth, president of the City Improvement League of Montreal, one of the many

projects for city betterment to which Sir Edward gave so generously of his time and talents. D. C. Coleman, chairman and president of the Canadian Pacific, expressed the warm appreciation the company's officers felt at the honor paid their former chief. Pictured here, beneath the picture of Lord Mount Stephen, first chairman and president of the company, are: Left to right, Senator Donat Raymond, Mrs. James Bieby, Henry G. Birks, pro-mayor of the City of Montreal, who spoke for Mayor Adhemar Raynault, who was out of the city;

Senator Charles P. Desbouché, who spoke for St. Justine's Hospital; Dr. Donald A. Hingston, president, Montreal City and District Savings Bank; Mr. Coleman; Mr. Smyth; Dr. Endore Dubau, dean, Université de Montréal; Dr. Beatty; Sir Montagu Allen; Senator Athanasius David; Chief Justice S. Letourneau; René Morin, chairman, Board of Governors, Canadian Broadcasting Corporation; Dr. Milton L. Hersey, past president, City Improvement League; Victor Dore, superintendent of education, Province of Quebec; Justice E. Fabre surveyor.

### MORE APPROPRIATE

"How quaint the minds of children are!" remarked the late Jane Adams, of Hull House, one day at a mother's meeting. "One New Year's Day I gave a little girl a present of a diary."

"This is a diary," I explained to her. "Every day you must write in it a record of how you live."

"The little girl turned the blank pages of the book and said:

"But why isn't it called a diary instead of a diary, ma'am?"

### Material For Munitions

Being Carried Across Canada In Well-Filled Freight Trains

Freight trains across Canada are filled with munitions and other war supplies which eventually will pound the Axis nations to defeat. Behind their closed doors, potential material for munitions, collected by salvage workers, is being taken to the great factories where it will be changed to the finished product.

A glance into the three cars shipped by the Salvage Committee of Nelson, B.C., shows the type of work this committee and thousands like it are doing for the war effort.

The first car contained 36,000 pounds of mixed salvage. Bags, mattresses, glass, aluminum, brass, copper, burlap, tinfol, batteries, made up the amount. This was designated for the Red Cross Salvage Department in Vancouver to be sold to the highest bidders, preference being given to those firms which had war contracts.

The second car was entirely filled with rubber, 36,040 pounds of it. This car went to the Fairmont Company at Toronto, the Government-owned concern set up especially to reclaim rubber.

These cars tell a story of real patriotic endeavor. Service clubs, Boy Scouts, municipal authorities, and other zealous citizens all co-operated to help gather the scrap. In other municipalities, the same size as Nelson, there are thousands of tons of scrap still waiting to be gathered and sent to the war industries of Canada.

### FOUR CLEAN WOOL

Alberta, Ontario and Saskatchewan have now agreed to pay a two cent bonus for clean wool. This assured, the Dominion Government will pay another two cents, so farmers of these provinces marketing clean wool get a four cent bonus.

The Indian words "Edah hoo," meaning "light on the mountains," gives the state name of Idaho.

### NOT WASTING WORDS

The landlord of offices tenanted by a firm of Scots lawyers whose lease was about to expire, wrote to ask whether they were going to continue in occupation. Their reply was:

"Dear Sir: We are. Yours Truly—"

Not approaching this effort in economy of words—and paper—he wrote to demand whether or not it was their intention to remain. The answer was:

"Dear sir: We remain. Yours truly—"

The landlord is not trying again.

### HELPING WAR EFFORT

In an effort to help Canada's war effort, a middle-aged farmer who went blind three years ago has started a chicken ranch in a small town in southern Saskatchewan. The project was launched under the direction of the Canadian Institute for the Blind.

## Soft Shirtwaister

4272

Be smartly on the job—in this soft-tailored shirtwaister. Anne Adams design, Pattern 4272 is young, slimming. There's fashion news in side-front skirt pleats that give ease without spoiling the slim silhouette lines. Use top-stitching—or have the collar in contrast.

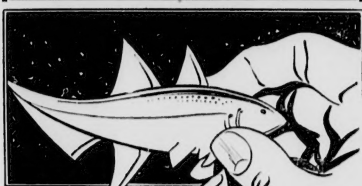

Pattern 4272 is available only in women's sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 takes 3 1/2 yards 35-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave., E., Winnipeg, Man. "Because of the slowness of the mails delivery of our patterns may take a few days longer than usual."

The Japs, having lost their silk market, are reported to be using silk to make a shoe fabric.

R.A.F. SERVICING COMMANDOS.

They make newly-captured airfields serviceable in record time. Picture shows R.A.F. Servicing Commando airmen preparing a fighter to take the air. This work was done within minutes of the occupation of Maison Blanche, Algiers.

## Newly-Weds Honored

On Tuesday evening of this week, a number of cars gathered at the north corner of the Ian Stauffer farm, from which they proceeded to his house together, entering the yard under the sound of the tooting of horns, of every description, making a most uncomfortable noise, all in honor of Mr. and Mrs. Stuart Hooper, who were married recently.

After having disembarked, the farm was looked over, which was followed by a number of outside games. The town folk that were out, took in all the country air possible.

Darkness finally coming on, they were herded into the house, where more games were indulged in.

The newly-weds were then comfortably seated to a table, and presented with a tubful of useful and beautiful gifts, brought in by little David and Edward Archer. The presentation was made by Rev. E. Archer.

After opening knots galore, and unwrapping the many parcels, Mr. and Mrs. Hooper heartily thanked one and all for their kindness, and assuring each one of a warm welcome to their home.

Last, but not least, a very delicious lunch was served to about fifty, including the "best", much to everyone's contentment.

Rev. L. Fry then spoke an appropriate few words, wishing the new couple much happiness, and bringing out the fact that, our Nation today is greatly in need of more Godly homes. He then closed in prayer, after which the "happy gang" dispersed.

Tickets for the Bungalow, in aid of Greek War Relief Fund, may be obtained from Elizabeth Austin, up until Saturday afternoon of this week.

## LOCAL & GENERAL

### Evangelical Church Notes

Sunday, June 13, is Pentecost Sunday. Pentecost is the birthday of the Christian Church. The sermon will deal with the needed power to carry on the work of the church. They will answer questions on the evening service at 10:30.

At the evening service at 7:30, the catechetical class will graduate. They will answer questions on the entire course, catechism memory work, Biblical geography, history of the Evangelical church and Bible stories. We invite all to attend these services.

Bethel services will be held at 2 p.m.

## FAT IS AMMUNITION!

Fat and bone conservation begins at home and ends  
in the firing line

### - DO YOU KNOW -

One pound of fat supplies enough glycerine to fire 130 bullets from a Bren gun.

Two pounds of fat will fire a burst of 20 cannon shells from a Spitfire or 10 anti-aircraft shells.

Bones produce fat and aircraft glue.

If we saved fat at the rate of one ounce per person per week this would mean 36,000,000 pounds per year, enough to produce 3,600,000 pounds of glycerine for explosives.

## OUR FIGHTERS DEPEND ON YOU

"Every householder who delivers to a retail butcher, collector, or Salvage Committee, any rendered or unrendered fats or bones shall be entitled to receive from the person to whom they are delivered 4 cents per pound net weight for rendered fats, and 1 cent per pound for unrendered fats."

The above paragraph is a direct quotation from Order A-642 of The Wartime Prices and Trade Board.

"Rendered fat" means fat melted down and strained to remove solid matter. It includes drippings and strained pan grease resulting from the cooking of meat.

"Unrendered fat" means raw or partially cooked fat free from lean meat and bone, but not fully rendered.

"Bones" means raw or cooked bones of cattle, sheep and hogs.

### EVERY OUNCE COUNTS!

SAVE AND STRAIN EVERY DROP TO SPEED VICTORY. SELL IT TO YOUR BUTCHER OR GIVE IT TO YOUR SALVAGE COMMITTEE.

### NOTICE TO BUTCHERS, HOTELS, ETC.

You have been mailed a copy of Order A-642. This Order affects operators of hotels, restaurants and other establishments where meals are served. It is of immediate importance to butchers and slaughterers. If your copy has been lost, you can obtain another from the nearest office of The Wartime Prices and Trade Board.
